

Dhladhla
foundation

TO WHOM IT MAY CONCERN

March 23, 2018

Dear: Sir / Madam

RE: KHONA SOURCE GROUP T/A TOSHIBA TECH; MR KINGSLEY CHAMBERS

The Dhladhla Foundation is an implementing agent of the Department of Co-Operative Governance and Traditional Affairs' Community Works Programme across all nine provinces of South Africa. As such, we run a head office, nine provincial offices and over 100 site offices across the country.

This letter serves to confirm that since September 2015, Khona Source Group T/A Toshiba Tech have been our service provider for the procurement of office equipment (particularly multi-function printers) for all our offices nationally. In addition, they have also been responsible for the upgrading of our previous office equipment and continual maintenance and service across the offices, nationally.

Their service has proven excellent for the duration of our relationship, with quick response times, wide service offering, ability to identify the differing needs of our offices and adequately cater thereto, as well as proactively managing potential challenges. We are particularly satisfied with Mr Chambers' client care and efforts to ensure that all solutions implemented are cost effective.

Should you have any queries, kindly contact writer on 011 318 1816 or kgabos@dhladhla.com.

Yours faithfully

Kgabo Setati
